

Peter's Room Function Chart

After you've tackled the superficial clutter and cleared a little space in your home, you should be able to see what is really possible. Now, it's time to put it on paper!

Print out a chart for each room. If you're organizing with a partner or your entire family, print a copy for each person so you can all describe what you envision for your home. Then, get together and start working to make it a reality.
