TURNING GOLD INTO CASH ACTION PLAN

One of the questions that I'm getting more than I've ever gotten before is about gold. Why? Because gold has been going up and up in value. Should you sell it? Should you keep it? And what's the best way of investing in gold?

- ❑ Choose to Invest in the ETFs of Gold Instead of Actual Gold.
- ❑ One of the Best ETFS for Gold is GLD.
- ❑ One of the Best ETFs for Silver is SLV.
- ❑ At Least 10-15% of Your Portfolio Should Be in the ETFS of Gold and/or Silver.

Notes:
